

ITEM 950 - Reweigh / Reclassify Surcharge

A Weight and Inspection charge of \$25.00 per occurrence will be applied to any freight bill where an adjustment to linehaul charges has been made due to an inspection or reweigh resulting in a change in shipment weight or change in NMFC commodity class. This charge will be in addition to all other lawful charges.

When mixed commodities are palletized by the shipper, the increased weight will be charged at the lowest rated commodity in the shipment.

When a bill of lading does not show a weight, the charge for weight determination is \$25.00 per shipment. The charge will be added per the terms of the bill of lading.
